

32-port Sync and Charge Console for iPads

Model #DS-SC-U32

Item #10462

- Compact, durable, easy-to-use form factor
- Can be used on a desktop, existing cart or cabinet; use to convert an old laptop cart to a sync and charge iPad™ cart
- State-of-the-art, professional 32-port USB hub that meets iPad specs for simultaneously syncing to iTunes™, Configurator and MDM software
- Incorporates our unique universal, "future-proof" USB charging technology that supports all USB chargeable devices. Field updatable firmware assures it will work with future USB charged devices as technology changes.
- A protective powder coated steel enclosure to shield the unit from rigorous daily use
- Provides full charge capabilities at 2.1A per port (it will both charge and sync iPads & iPods™)
- Features a simultaneous charge and sync feature that charges devices while connected to a host
- Two power supplies: SP-240-5, 100/240 VAC; 225 watts @ 5V; built-in DC fan
- Includes two Cambrionix USB boards and two power supplies and pre-installed in a custom enclosure
- For iPads, use the Apple-provided iPad USB cables or purchase an optional Datamation Systems cable accessory bundle
- Dimensions: 9 3/8"W x 11 5/8"D x 5 3/8"H
- Weight: 9 lbs.
- ETL, CE
