

Model #DS-MACMIN-2.0

Item #12178

- Maximum security to protect your new, redesigned Mac mini and Unibody Mac mini without compromising its extraordinary design
- Much more secure than a slot lock cable, it secures your mini with a powerful adhesive base (700 pounds of dynamic sheer strength) and/or screws
- Protects computer's internal components, allowing access to all external ports and features
- Complements Apple's aluminum case
- High security snap-in lock
- Sleek design respects the mini's unique design
- Perfect for schools, museums, office and public access areas
- Dimensions: 8.25"W x 9"D x 1.75" H
