SONIC SHOCK ALARM

Model# DS-SONICSHOCK   **Dell SKU# A0063535**

* Powerful alarm anti-theft device

* Protect digital projectors, printers, desktop and tower PCs and LCD monitors from theft

* Alarm housing, mounting plate and case sealing bracket fabricated from high grade stainless steel

* Locks: Ilco 5 wafer cam lock with removable core; available keyed alike, keyed-differently or master-keyed

* Alarm is triggered by cutting or unplugging a 10 foot electronically monitored tether, virtually eliminating false alarms

* Once tripped, siren sounds for more than 2 hours

* Dimensions: 3.8"W x 2"D x 1.3"H

Stainless Steel baseplate is permanently fused to your equipment

Alarm module snaps onto the baseplate. Arming the alarm also locks this module on

A 3 meter/10 foot sensor snares around an immoveable object. Cutting this will trigger the alarm

The sensor loop plugs into the alarm module. Cutting or unplugging triggers the alarm
